

I found these epics over at the Marvel Movies FB page, but can't pin point exactly where they came from. The guy that posted them there insists that The Avengers is shooting scenes(of what is unclear) near a Walmart in Kittanning PA, and that is where these trucks were snapped.

Either way, they are clearly some pics of some cool looking S.H.I.E.L.D trucks. Whether they are being used for scenes there are awaiting transport elsewhere has not been confirmed.
