

If you read or are familiar with the "Old Man Logan" storyline from a few years ago in the pages of Wolverine, then this will be right up your alley! Set more than fifty years in the future, Old Man Logan features a world in which the world's super villains ganged together to finally destroy almost all superheroes. Logan lives with his wife Maureen, his son Scotty and daughter Jade on a plot of land in Sacramento, California, now part of land known as "Hulkland". He requires money to pay his rent to the landlords of this territory: the descendants of Bruce Banner, the Hulk, who are a product of years of incestuous procreation originating with Banner and his first cousin She-Hulk. In order to pay off his rent, Logan accepts a job from Hawkeye: help him navigate across the country and deliver a secret package, possibly illegal. Standing over 12
