Set in the 1950's, Sucker Punch follows Baby Doll (Emily Browning) who is confined to a mental institution by her stepfather, who intends to have her lobotomized in five days. While there, she imagines an alternative reality to hide her from the pain, and begins planning her escape, needing to steal five objects to help get her out before she is deflowered by a vile man. Sucker Punch hits theaters on March 25th this year.
