

Continuing Yesterday's shoot for Sony's reboot The Amazing Spider-Man in Brooklyn, New York, latest set images depict of the star Andrew Garfield, director Marc Webb, and finally actor Rhys Ifans, who's portraying Dr. Curt Connors; The Lizard. Courtesy of a heads up from 'RIMBreaks', formally 'ReallronMan', as well local J Anthony Hall via Twitter, check out the images below. I was just reminded of the fact that Dr. Curt Connors has only one arm, therefore the green glove-like covering his arm is most likely to CGI his arm out. So, unfortunately there's no further tease of The Lizard. The Amazing Spider-Man focuses more on Peter Parker's high school days and the development of his powers while navigating the troubles of a brainy geek in high school. And starring Andrew Garfield, Emma Stone, Denis Leary, Rhys Ifans, Martin Sheen, and Sally Field, the film swings into theaters July 3, 2012 in 3D!
