Stalwart journalist Sarah Jane Smith (Elisabeth Sladen) and her trio of intrepid teenage sidekicks defend the Earth against hostile aliens galore, equipped with gumption, sonic lipstick, and a hidden extraterrestrial supercomputer called Mr. Smith. This spinoff from Doctor Who is squarely aimed at a younger audience, with much of the action carried by handsome and cool Clyde (Daniel Anthony), spunky but levelheaded Rani (Anjli Mohindra), and Sarah Jane's adopted son Luke (Tommy Knight), who's a genetically engineered genius. The six two-episode stories in the complete third season feature Sarah Jane becoming possessed by an alien prison escapee, red-eyed teens playing in an empty amusement park, paranormal investigators in a haunted house, the Mona Lisa come to life, and an invasive alien plant, as well as some aliens familiar to Whovians and a visit from the Doctor himself (in the form of the ever-energetic David Tennant). Many of the pleasures of Doctor
