

In a video interview with the New York Post, the actor behind 'Bucky' in Marvel & Joe Johnston's Captain America: The First Avenger, Sebastian Stan, dishes on the filming experience as well training among other things. At the end of the video, while it may be a stretch, when the actor was questioned would he appear in Marvel's The Avengers, he got a bit choked up. Check it! With the trades listing Stan's Captain America co-star Derek Luke reprising his 'Gabe Jones' role in Marvel's The Avengers, as well Stan's reply in the video above, I can't help but imagine The Avengers will possibly open in a WW2 setting; similar to the Ultimates comic. What do you think of that? Captain America: The First Avenger focuses on the early days of the Marvel Universe when Steve Rogers volunteers to participate in an experimental program that turns him into the Super Soldier known
