

The actual Aliens have pretty much been kept out of the clips/images we have seen so far for John Favreau's sci fi Western which will premier at this year's Comic Con. But thanks to this unused poster by artist Drew Struzan, we can get a bit of a better idea of what to expect when these space fairing uglies throw down with Daniel Craig and Harrison Ford.. Well, at least we get to see his work now. Cowboys And Aliens hits theaters July 29th. By TwitterButtons.com
