

In that film, a teenager inadvertently hacks into a military computer and nearly causes World War III. That film starred Matthew Broderick and Ally Sheedy and was one of the box office hits of that summer. What follows is the Wargames-related portion of that interview. For the full interview, click [HERE](#). BEAKS:It sounds like you are about to shift gears fairly dramatically with Wargames. That could be perilous. It's a movie that our generation knows front to back. How do you approach Wargames in a way that I guess honors the original, but is also very much its own thing? GORDON:I think that's obviously the goal of what we are going to try and do, which is to honor everything about the original. I think it all comes down to the fact that the world has changed a lot. Technology has changed a lot, and the world of hackers has changed a lot;
